

Remarks

In response to Examiner's telephonic request, the present Amendment After Allowance completes the sentence at the end of page 8 of the originally filed application. The Amendment to the specification raises no new issues of patentability or new matter as it merely completes the thought which follows from the previous sentences. It is therefore respectfully requested that the Amendment After Allowance be entered pursuant to 37 C.F.R. § 1.312.

Respectfully submitted,

Date: February 2, 2006
